

The advertisement features a large, sleek, silver outdoor speaker with a black grille, angled towards the right. The background is a light, abstract design with flowing, golden-brown lines and a soft, ethereal glow. The James Loudspeaker logo is prominently displayed at the top right in a cursive script, with 'LOUDSPEAKER' in a smaller, sans-serif font below it. The word 'VIRTUOSO' is written in large, bold, grey block letters, and 'outdoor collection' is written in a smaller, cursive font below it. The speaker is shown in a close-up, highlighting its modern design and the texture of the grille. The overall aesthetic is clean, modern, and sophisticated, emphasizing the speaker's outdoor capabilities and high-quality construction.

VIRTUOSO
outdoor collection

The Virtuoso 620DS is designed to provide high output for wide listening areas and ambient sound. Like the 310DS, this larger speaker is housed in an outdoor light enclosure. James refined engineering standards include marine hardware for all weather conditions.

Features: (1) 6" poly woofer and (1) .5" aluminum tweeter mounted in a coaxial configuration. The advantages of this larger enclosure and separate drivers is greatly increased SPL, plus wider frequency response (60hz-22Khz). Play it loud - made for a crowd! They can be used in multiples in any outdoor system by themselves, or combined with 310DS sats.

*James Loudspeaker...
in a class of it's own.*

620DS
OUTDOOR SATELLITE SPEAKER

Size:	6" diameter x 9"d
Weight	6 Lbs
Freq Response	60-22Khz +/- 3dB
Crossover	FDC 6dB / Octave - Variable
Sensitivity	98dB @ 1 watt, 1 meter
Power req.	35 Watts RMS
Impedance	8 Ohms
